

CME/CE Answer Sheet and Evaluation

2006 Annual Review of Cytokines in Cancer Management
Release Date of Activity: April 15, 2007

Journal of Supportive Oncology, Vol. 5, No. 4, Supp. 2
Expiration Date of Activity: April 30, 2008

This issue of *The Journal of Supportive Oncology* provides 8 **free** AMA PRA Category 1 Credit(s)[™], 3.5 **free** nursing CE contact hours, and 3.0 **free** pharmacy CE credits (ACPE #038-999-07-006-H04).

To receive CME credit/CE contact hours for this educational activity, study the information presented in this supplement before answering each post-test question (see pages 93–94) on the answer sheet below and complete the evaluation form. Post tests without a complete name and mailing address cannot be processed for CME credit or CE contact hours.

Mail a photocopy of the completed answer sheet and evaluation form by **April 30, 2008**, to:

Elsevier Office of Continuing Medical Education • Department 2MJSO04
685 Route 202/206 • Bridgewater, NJ 08807

Get instant CME credits! Complete your test online and download your certificate now. Log on to: www.elseviercme.com/getcme/2MJSO04

2006 Annual Review of Cytokines in Cancer Management
Journal of Supportive Oncology, Vol. 5, No. 4, Supp. 2

Post-test Assessment

Please state your current knowledge of the management of anemia, neutropenia, mucositis, and thrombocytopenia on a scale of 1 to 5, with 1 being the lowest and 5 the highest.

1 2 3 4 5

Overall Evaluation

Please eval	1	2	3	4	5
1. Describe the key research findings that were presented at major medical and pharmacy meetings in 2006 about cancer-related anemia, neutropenia, mucositis, and thrombocytopenia	1	2	3	4	5
2. Identify evidence to support improved clinical, economic, and quality-of-life outcomes in chemotherapy-related anemia	1	2	3	4	5
3. Describe the controversy over the use of same-day versus next-day growth factors as prophylaxis for neutropenia	1	2	3	4	5
4. Discuss the economic costs of untreated chemotherapy-induced neutropenia, as well as its impact on healthcare resources	1	2	3	4	5
5. Describe the overall burden of oral mucositis	1	2	3	4	5
6. Identify the biologic pathways to the advent of oral mucositis that are being targeted by therapeutic agents currently in development or already approved	1	2	3	4	5
7. Describe three novel thrombopoiesis-stimulating agents currently in development for idiopathic thrombocytopenic purpura (ITP)	1	2	3	4	5
8. Explain how the treatment of ITP might influence the treatment of chemotherapy-induced thrombocytopenia	1	2	3	4	5
Were the purpose and objectives consistent with the content? <input type="checkbox"/> Yes <input type="checkbox"/> No					
If not, how were they inconsistent? _____					
Was this supplement effective as a teaching method for you? <input type="checkbox"/> Yes <input type="checkbox"/> No					
If not, why not? _____					
Will the content of this supplement be useful in your physician/nursing role? <input type="checkbox"/> Yes <input type="checkbox"/> No					
If yes, give at least one example how: _____					
Did you find the information presented to be objective, fair, balanced, and free of commercial bias? <input type="checkbox"/> Yes <input type="checkbox"/> No					
Comment: _____					
Suggested topics/authors for future activities: _____					

The EOCME thanks you for your participation in this CME activity. All information provided improves the scope and purpose of our programs and your patients' care.
